eCaseLink™ **Designer**

Technology Transfer Simplified with
Your Trusted eClinical Partner

eCaseLink **Designer**

Technology transfer can be daunting

for many organizations, but not with DSG's eCaseLink Designer.

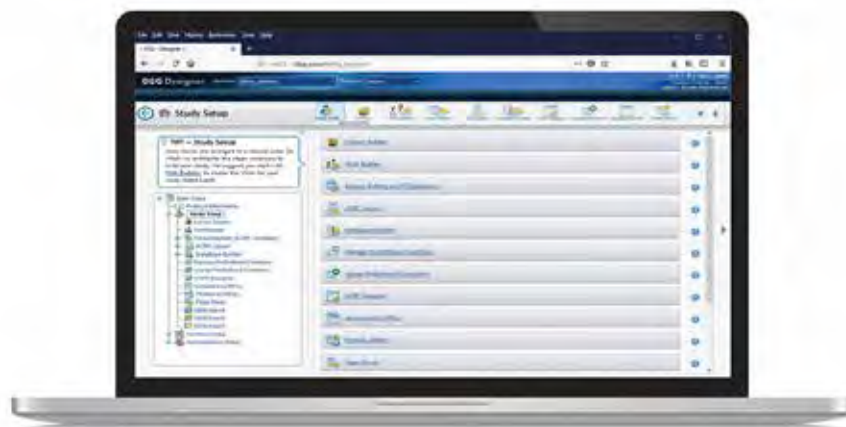

DSG's leading technology transfer offering is based on the most respected, time-tested electronic data capture (EDC) solution in the life sciences industry. eCaseLink™ Designer requires no programming or coding skills to design and deploy your eCRFs fast no matter what the trial design may be. It is the easiest EDC build tool that provides drag-and-drop, point-and-click build functions, and can be accessed from any PC, Macintosh, iPad or other tablet of your choice. And best of all you have the support from the most innovative and experienced provider of eClinical solutions, who put meaning behind the 'transfer' in technology transfer.

**DSG is committed to
Knowledge Transfer**

With eCaseLink Designer you're in complete control of workflow to streamline trial success. DSG's solution provides:

- Flexible intuitive design that requires no software coding experience
- Extensive library of preset domains from CDISC and similar studies
- Setup datasets, protocol and visit information for studies
- Ability to create, edit and assign field validations and rules
- All print full book PDF generation of eCRF layout and specifications
- Reusable, proven eCRF templates
- SAS configuration and export to eCaseLink
- Design and flexibility that allows for unique customization of eCRF layouts
- Easy ability to publish all eCRFs directly into eCaseLink
- Ease of movement of eCRFs from development, test and final production
- Simplified management, creation, and assignment of predefined functions
- Flexible partnering models to fill any sponsor or CRO team's labor gaps

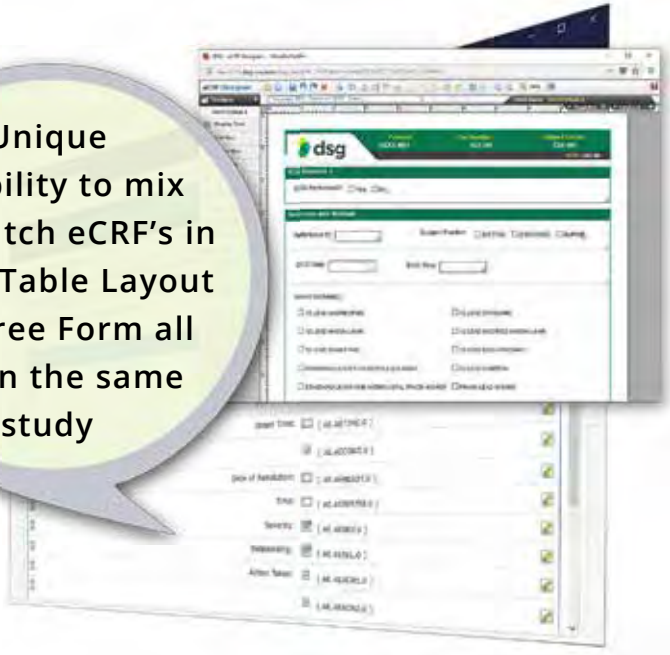

The most Innovative and Experienced eClinical provider in the industry.

Over 2,000 full-service deployments across 36 therapeutic areas built into the product and edits library.

DSG provides support that makes technology transfer true knowledge transfer. After all, technology transfer is only as good as the ease of knowledge transfer and the support provided by your partner. No one does this better than DSG.

DSG's highly experienced professionals have both clinical and data expertise in supporting clients through every step of their process. DSG believes it is critical to understand our clients' business needs that ensure our support services will improve your clinical trials. Our dedicated teams and highly skilled project managers are your valuable assets when using eCaseLink Designer and eCaseLink EDC for your clinical study needs.

Unique flexibility to mix and match eCRF's in both a Table Layout and Free Form all within the same study

DSG partners closely with our technology transfer clients meaning:

- DSG is fully committed to your study success
- DSG team of specialists available to assist study builders when needed
- Your study challenges are met
- Your team has the confidence to build studies quickly and completely from start to finish
