

DSG ESTABLISHES WHOLLY OWNED SUBSIDIARY IN INDIA

Subsidiary to Provide Software Development, Quality Control and Research Services

Malvern, PA, April 7, 2008 – DSG, Inc., a leading edc and clinical software technology provider, today announced the opening of a wholly owned subsidiary, India Document Solutions Private Limited, located in Noida, Uttar Pradesh, India, a suburb of New Delhi. The subsidiary will employ software engineers focused on research and development and quality control for DSG’s award-winning software. DSG has conducted business in India for the past three years with several partner companies in the life sciences industry.

“DSG is committed to the discovery and development of cutting-edge software solutions for the life science industry. Our subsidiary in India will enable us to better meet the needs of our global customers by providing innovative product solutions more cost effectively. With around the clock product development, we will be able to reduce the time required to bring new products to market,” said Tony Varano, president and CEO of DSG. He continued, “Having conducted business in India over the past three years, we realized the tremendous amount of talent this region has to offer. The opening of our India office is a natural progression of our planned business expansion and international growth.”

India Document Solutions Private Limited will be led by General Manager Bhartendu Sharma. Bhartendu has over 15 years experience providing custom software design and development. He has extensive expertise and has held various leadership positions throughout the software industry.

“It is an honor to serve as Software Delivery Head for DSG India and lead the software development team,” commented Bhartendu. “We have a highly diverse team of engineers committed to an aggressive product pipeline.”

DSG has developed proven processes and procedures to ensure that workflows are seamless across offices in the US and India. The subsidiary currently employs 30 people with expansion plans of an additional 30 by year-end. DSG will continue to operate and staff its 24/7 help desk out of its U.S. offices.

DSG continues to investigate more global expansion opportunities and is currently developing plans to open an office in Japan later this year.

About DSG

Since 1992, DSG, Inc., headquartered in Malvern, PA, has supported clinical trial data collection with innovative technology solutions including its award-winning edc software eCaseLink, electronic patient diaries and digital on-demand CRF publishing management software. DSG's products allow user-friendly, accurate and efficient data capture at any investigator site regardless of the site's technological infrastructure. DSG has successfully supported over 400 clinical trials for more than 300 companies, at over 18,000 sites with more than 200,000 patients worldwide. Clients include top five pharmaceutical, biotechnology, and medical device companies. For more information, please visit www.dsg-us.com.
